

INSTITUTE OF PROJECT MANAGEMENT PROFESSIONALS

Registered Professional Bodies No. PB. 68, 2016

CODE OF CONDUCT PROJECT MANAGEMENT PROFESSIONALS

Training Project Management Practitioners

INSTITUTE OF PROJECT MANAGEMENT PROFESSIONALS (IPMP)

Sustainable Development Goals (SDG) 2030 is aim at ending poverty, protect the planet, and ensure prosperity for all, the practice of project management is becoming critical to the success of many development, government, and nonprofit organizations (NGOs). With reduced budgets and increased demands from donors and other stakeholders, organizations need to incorporate the tools and practices of modern project management in order to achieve the expected results. Embracing and integrating formalized project management within an organization involves more than merely completing a training program.

Public and non-profit organizations are requiring certified project managers as projects grow in complexity and donors demand transparency, accountability and efficiency. Project management skills are applicable to a growing range of development areas including: Education, Water and sanitation, Health, Agriculture and natural resources, Environmental, Fundraising, Nutrition, Advocacy, Emergency and Economic development. To be successful, organizations need to support project management from the top down and create a flexible framework consisting of practices, competencies, and techniques scaled to their specific project demands.

In view of this, Institute of Project Management Professionals was established with the commitment of providing resources, develop knowledge and expertise to support development of Ghana in her efforts to achieve this ambitious goals by training and certifying project managers and practitioners in Ghana.

The Institute of Project Management Professionals (IPMP) is a Licensing and Regulatory Professional Body in Ghana, incorporated under the Companies Code, 1963 (Act 179), and duly registered as a Professional Body in accordance with the provisions of the Professional Bodies Registration Decree, 1973 (National Revolution Council Degree 143) as Chartered Project Management Institute (CPMI) to train professionals in project management with Professional Bodies Registration No. PB 68.

The institute is approved by Ministry of Education through the Ghana Education Service (GES), a registered TVET Center for Council for Technical and Vocational Education & Training (COTVET-Ghana), affiliate to National Board of Professional & Technical Examination (NABPTEX-Ghana), and American Academy of Project Management (AAPM-USA) for mentoring of its Professional Membership Examination. The institute is an accrediting member of Global Alliance of Project Management Profession, (GAPPS-Australia), and Institute of Professional Bodies Ghana.

FORWARDS

All leading professional bodies, such as Institute of Project Management Professionals (IPMP), have a code of conduct to set standards, guide the member and raise the level of trust and confidence of the public in the profession. All members must express their commitment to the code when they join profession and to subsequent changes to the code which may be agreed from time to time. We, the members of Institute of Project Management Professionals as knows Project Management Professionals Ghana to fully realize our purpose, do hereby adopt and establish this code of conduct as the guiding instrument of our professional institute on preamble below:

The demand for project management professionals and practitioners is increasingly vital to many areas of business today as a result of organizations embarking on complex projects with the view in creating unique products and services. According to Dr. David Ackah, PhD (2016) in his research article "*why many projects fail to complete in Africa*", planning projects require Professional Competence Baseline (PCB) in scope, budget, schedule and quality management which he describe as the major projects constraints known as the project trapezium. In Africa, many government projects are not completed on the scheduled project time.

This is because of delays which characterize projects in many places, including Ghana. For example, in the construction industry shortcomings like poor understanding of the project, lack of modern equipment, incompetent contractors, inadequate supervision, etc. result in delayed completion of projects, cost overruns and compromised quality. Due to its several circumstances, including political stability, relatively good governance and fast economic growth trajectory, Ghana is host to several and major development projects and landmark reforms. There is a plethora of on-going and competed projects which provide sufficient evidence of the characteristics that affect the fate of projects.

Many government projects suffer the peril of non-completion. This situation is much pronounced in government roads and bridges projects, hydropower projects, thermal power projects, housing projects, agricultural projects, educational policies & programmes, and directly affects the lives of the people and the government's development agenda. The profession of project management is changing rapidly. Organizations have evolved their ability to define and implement new areas of work, with more integration of project management principles and more focus on the long-term benefits.

Project management, then, is established as the preeminent method for making change in organizations and businesses and project, programme and portfolio managers are leading the way. The professionals of tomorrow will work in distributed environments with overlapping and often conflicting stakeholder interests, challenged with too much information and not enough communication and judged by their ability to deliver products or services that align with short and long term strategies, to deliver benefits (Dr. David Ackah, 2017).

In order to avoid the menace of projects' non-completion, regulating project professional and practitioners with professionals code of conduct has been identified as one of the root cause measure to adopt as mitigating measure. According to Martin J. Williams (2016), "Using an

original database of over 14,000 small development projects in Ghana, I estimate that approximately one-third of projects that start is never completed, consuming nearly one-fifth of all local government capital spending”.

DEDICATION

The Institute of Project Management Professionals dedicate this code of conduct to all project management professionals in Ghana and beyond, to its members, Executive Board, and the Council Board.

ACKNOWLEDGEMENT

First and for most, Institute of Project Management Professionals wishes to express his greatest appreciation to the God for his support and guidance during and after the work.

The institute is appreciative of the immense technical and academic supports receives from members, Executive Board, and Council Board.

A special gratitude also goes to the editor who supported through the original of the manuscripts and made significant improvement on the quality of English Language. Constructive criticisms, recommendations and corrections, even though do not completely eliminate all the language error, have significant upgraded the Written Language Factor (WLF).

A personality, whose invaluable and priceless financial support has made it possible for the successful completion of this code of conduct.

PREAMBLE

All leading professional bodies, such as IPMP, have a code of conduct to set standards, guide the member and raise the level of trust and confidence of the public in the profession. All members must express their commitment to the code when they join IPMP and to subsequent changes to the code which may be agreed from time to time.

We, the members of Institute of project management Professionals to fully realize our purpose, do hereby adopt and establish this code of conduct as the guiding instrument of our institute on preamble below:

The demand for project management professionals and practitioners is increasingly vital to many areas of business today as a result of organizations embarking on complex projects with the view in creating unique products and services. According to **Dr. David Ackah, PhD (2016)** in his research article "*why many projects fail to complete in Africa*", planning projects require Professional Competence Baseline (PCB) in scope, budget, schedule and quality management which he describe as the major projects constraints known as the project trapezium.

In Africa, many government projects are not completed on the scheduled project time. This is because of delays which characterize projects in many places, including Ghana. For example, in the construction industry shortcomings like poor understanding of the project, lack of modern equipment, incompetent contractors, inadequate supervision, etc. result in delayed completion of projects, cost overruns and compromised quality.

Due to its several circumstances, including political stability, relatively good governance and fast economic growth trajectory, Ghana is host to several and major development projects and landmark reforms. There is a plethora of on-going and competed projects which provide sufficient evidence of the characteristics that affect the fate of projects.

Many government projects suffer the peril of non-completion. This situation is much pronounced in government roads and bridges projects, hydropower projects, thermal power projects, housing projects, agricultural projects, educational policies & programmes, and directly affects the lives of the people and the government's development agenda. The profession of project management is changing rapidly. Organizations have evolved their ability to define and implement new areas of work, with more integration of project management principles and more focus on the long-term benefits.

Project management, then, is established as the preeminent method for making change in organizations and businesses and project, programme and portfolio managers are leading the way. The professionals of tomorrow will work in distributed environments with overlapping and often conflicting stakeholder interests, challenged with too much information and not enough communication and judged by their ability to deliver products or services that align with short and long term strategies, to deliver benefits (Dr. David Ackah, 2017).

The professionals of tomorrow will work in distributed environments with overlapping and often conflicting stakeholder interests, challenged with too much information and not enough

communication and judged by their ability to deliver products or services that align with short and long term strategies, to deliver benefits.

In order to avoid the menace of projects' non-completion, the root causes should be identified, which should help practitioners to adopt mitigating measures. According to **Martin J. Williams (2016)**, "Using an original database of over 14,000 small development projects in Ghana, I estimate that approximately one-third of projects that start is never completed, consuming nearly one-fifth of all local government capital spending".

The profession of project management has become a global one. Organisations frequently engage in projects, programmes and portfolios that cross organisational, regional and national borders. The modern manager must work with a wide range of partners outside of his/her organisation and with a broad array of factors including industry, culture, language, socio-economic status and organisation types. Project management has to be applied taking these contextual facets into consideration. Often these broader contexts are seen as the most critical success factors. The IPMP PCB emphasizes these challenges.

It will take IPMP three years to train project, portfolio and programme management professionals in Ghana on the institute's PCB to equip them with competency-based standards of practice in managing project, portfolio and programmes. With the IPMP PCB, a new standard is available.

Signed:

Name: Dr. David Ackah, PhD

Position: Executive Director

ARTICLE ONE (1)
APPLICABILITY CODE OF CONDUCT

1.1 Applicability

- i. As practitioners of project management, we are committed in doing what is right and honorable. We set high standards for ourselves and we aspire to meet these standards in all aspects of our lives at work, home, and in service to our profession.
- ii. This Code of Conduct describes the expectations that we have towards ourselves and our fellow practitioners in the global project management community. It articulates the ideals to which we aspire as well as the behaviors that are mandatory in our professional and volunteer roles.
- iii. The purpose of this Code is to instill confidence in the project management profession and to help an individual become a better practitioner. We do this by establishing a profession-wide understanding of appropriate behavior.
- iv. We believe that the credibility and reputation of the project management profession is shaped by the collective conduct of individual practitioners.
- v. We believe that we can advance our profession, both individually and collectively, by embracing this Code of Conduct.
- vi. We also believe that this Code will assist us in making wise decisions, particularly when faced with difficult situations where we may be asked to compromise our integrity or our values.
- vii. Our hope is that this Code of Conduct will serve as a catalyst for others to study, deliberate, and write about ethics and values. Further, we hope that this Code will ultimately be used to build and evolve our profession.

1.2 Persons to Whom the Code Applies

The code of conduct applies to:

- a. All IPMP members
- b. Individuals who are not members of IPMP but meet one or more of the following criteria:
- c. Non-members who hold an IPMP certification
- d. Non-members who apply to commence an IPMP certification process
- e. Non-members who serve IPMP in a volunteer capacity.

1.3 Structure of the Code

The Code of Conduct is divided into sections that contain standards of conduct which are aligned with the five values that were identified as most important to the project management community.

1.4 Values that Support this Code

- i. Professionals from the global project management community were asked to identify the values that formed the basis of their decision making and guided their actions.
- ii. The values that the global project management community defined as most important were: professional competence and due care, objectivity, confidentiality, integrity, and professional behavior. This Code affirms these five values as its foundation.

1.5 Aspirational and Mandatory Conduct

- i. Each section of the code of conduct includes both aspirational standards and mandatory standards. The aspirational standards describe the conduct that we strive to uphold as practitioners.
- ii. Although adherence to the aspirational standards is not easily measured, conducting ourselves in accordance with these is an expectation that we have of ourselves as professionals it is not optional.
- iii. The mandatory standards establish firm requirements, and in some cases, limit or prohibit practitioner behavior. Practitioners who do not conduct themselves in accordance with these standards will be subject to disciplinary procedures before IPMP's Professional Conduct and Ethics Committee.

ARTICLE TWO (2)
FORMATION OF THE INSTITUTE

2.1 Designation

- The institute shall be known and be called the “**Institute of Project Management Professionals**” (hereinafter called “the IPMP”).

2.2 Motto

- Training Project Management Professionals

2.3 Registered Head Office

- a. The registered head office of the institute shall be in Accra, Ghana. This registered head office shall not be transferred to any other place (countries, regions, or cities) on no decision of the Governing Council.

- b. The duration of the institute is created for an indeterminate duration.

2.4 Registration

- a. A registered project management professional institute, which will be governed particularly by the laws of the Republic of Ghana (both governing non-profit making institutes) and the present Articles of Institute, is formed between the undersigned and natural persons or legal entities who adhere to the present Articles of Institute and fulfil the conditions set out hereafter.

- b. The Institute of Project Management Professionals (IPMP) shall be a Licensing and Regulatory Professional Body, instituted under the Companies Code, 1963 (Act 179) and shall be registered as a Professional Body in accordance with the provisions of the Professional Bodies Registration Decree, 1973, the National Revolution Council Decree 143 as Chartered Project Management Institute (CPMI) to train professionals in project management and its related field.

2.5 The Institute Objectives

The Institute of Project Management Professionals shall be established under the laws of the Republic of Ghana by the Company Act 1963 (Act 179) and National Revolution Council Decree 143 with objectives of:

- a. The representation and the promotion of fundamental research and of applications in the field of project management and its related filed.

- b. To connect the innovative capacity of project management professionals steps towards self-reliance

- c. The organisation, assessment, and quality control of project management services in Ghana, African and beyond.

- d. To provide a platform for project managers, engineers, consultants & team members to share knowledge and contribute to National Development in Ghana, Africa and the World at large
- e. Research, education, training, information, and consultancy services in project management and its related fields which are of interest to or concern project management.
- f. To train professionals with skills in expediting by initiating, planning, executing, controlling, and closing the work of a team to achieve specific goals and meet specific success criteria.
- g. General representation of the professionals in project management and its related field, in particular by sitting within any body in which the interests of project management could be concerned.
- h. To eliminate the gaps between theory and practice helping to lift Ghana/Africa out of obscurity in areas of project management
- i. The study of any question and the defense of interests concerning project management or its related field in general.

The exercising of any action, if necessary in a court of law, to ensure the respect of the objectives set out above.

2.6 Institute Means

To realise its objectives, the institute shall, in particular, be able to provide or undertake to organise the following activities:

- a. To associate natural persons or legal entities with competency in or, in a more general manner, an interest in the field of project management and its related field.
- b. To provoke any form of partnership or of exchange and collaboration in the different fields of project management and related field.
- c. To promote research, whether fundamental or applied, training or information in the field of project management and, generally, in any field likely to concern project management, in any way possible, and in particular by means of various publications.
- d. To initiate acquisitions in any group, foundation, institute, which already exists or is to be created and whose purpose is similar, related to or complementary to its own.
- e. As a general rule, whether on its own account or for that of a third party, to initiate any operation, including sale of products and of services, which could be directly related to the objectives, or likely to facilitate or develop the realisation of these.

2.7 The Institute Purpose

The purpose of the institute to the members is to:

- a. Conducts examinations for its members to test the competency level
- b. Awards membership of the Institute;
- c. Evaluate the competency of persons engaged in project management
- d. Awards certificates of competency in the field of project management
- e. Research and publish on matters relating to national project development, matters of professional's interest and all relevant reports with regards to national development

4.8 Institute Vision

- To train Project Management Professionals to become the national backbone of various countries, organization and ready to meet and overcome risks/challenges.

4.9 Institute Mission

- To promote and advance the science and practice of project management in the world especially enhance development in West Africa and foster the highest level of professionalism in project success.

2.10 Supremacy of the Institute Code

- (a) This code of conduct shall supersede any other document that regulates the conduct of members, their relationship or purpose to confer authority to Institute of Project Management Professionals or any structure falling under or formed by Institute of Project Management Professionals.
- (b) This code of conduct shall bind the governing council and all other structures established by IPMP, whether under this code of conduct or any document purporting to confer such authority.

2.11 Enforcement of the Institute Code

Any members(s) who allege(s) that:

- a) An act or omission of any person or group of persons; or
- b) Failure to observe or carry out the terms of an order of direction made or given under code of conduct, constitutes a violation of this code of conduct and contempt of the Judicial Committee.
- c) This shall in the case of Executive Board and Governing Council of IPMP, constitute a ground for removal from office.
- d) In the case of any members without any official position he/she shall be referred to the Professional Conduct & Ethics Committee of the institute for appropriate action.

2.12 Core Values

IPMP members shall subscribe to its core values known as **POCIP**:

- a. **Professional Competence and Due Care:** Members shall have a continuing duty to maintain professional knowledge and skill at the level required to ensure that a client or employer receives competent professional service based on current developments in practice, legislation and techniques. IPMP Members should act diligently and in accordance with applicable technical and professional standards when providing professional services.
- b. **Objectivity:** Members shall not allow bias, conflict of interest or undue influence of others to override professional or business judgments.
- c. **Confidentiality:** Members shall respect the confidentiality of information acquired as a result of professional and business relationships and should not disclose any such information to third parties without proper and specific authority unless there is a legal or professional right or duty to disclose. Confidential information acquired as a result of professional and business relationships should not be used for the personal advantage of the IPMP Members or third parties.
- d. **Integrity:** Members shall be straightforward and honest in all professional and business relationships.
- e. **Professional Behaviour:** Members shall comply with relevant laws and regulations and should avoid any action that discredits the profession.

2.13 Property

- All the property, real and personal, of every description now or hereafter belonging to the institute, shall remain and be vested in the institute; and all trusts for, or to be executed by the Institute under any former name or Service, shall inure to the benefit of the Institute, or in accordance with these Status.

ARTICLE (3)
DEFINITION OF TERMS

In the enactment of this code of conduct, unless the context otherwise requires:

- a. The **institute or institute** refers to the Institute of Project Management Professionals or IPMP totality, including its committees, groups, and chartered components such as chapters, colleges, and specific interest groups
- b. **"The Law"** means the IPMP code of conduct
- c. **"Appointed Day"** means the day on which the code of conduct is enacted and brought into effect by the governing council of the Institute of Project Management Professionals.
- d. **"Governing Council"** means the highest authority of the Institute of Project Management Professionals established by the Law.
- e. **Abusive Manner:** Conduct that results in physical harm or creates intense feelings of fear, humiliation, manipulation, or exploitation on another member of the institute.
- f. **Conflict of Interest:** A situation that arises when a practitioner of project management is faced with making a decision or doing some act that will benefit the practitioner or another person or organization to which the practitioner owes a duty of loyalty and at the same time will harm another person or organization to which the practitioner owes a similar duty of loyalty. The only way practitioners can resolve conflicting duties is to disclose the conflict to those affected and allow them to make the decision about how the practitioner should proceed.
- g. **Duty of Loyalty:** A person's responsibility, legal or moral, to promote the best interest of an organization or other person with whom they are affiliated.
- h. **IPMP-Sponsored Activities:** Activities that include, but are not limited to, participation on an IPMP Member Advisory Group, IPMP standard development team, or another IPMP working group or committee. This also includes group activities engaged under the auspices of a chartered IPMP component organization whether it is in a leadership role in the component or another type of component such as educational activity or event.
- i. **Professional or Practitioner:** A person engaged in an activity that contributes to the management of a project, portfolio, or program, as part of the project management profession.
- j. **IPMP Volunteer:** A person who participates in IPMP-sponsored activities, whether a member of the Project Management Institute or not.
- k. **Membership Designatory** shall include the appropriate form of reference to members who have successfully completed the IPMP Professional Qualification

- l. **“IPMP Members”** means the members who have successfully completed the Institute programme & training and have been duly admitted by institute with membership number **(e.g. MN-PM/PB68-16/1000)** and been issued with the institute membership and the professional academic certifications
- m. The masculine pronoun **“he”** is taken to refer equally to female persons.
- n. **“Regulations”** includes all rules, procedures, manuals or any other documents regulating all activities within the Institute.
- o. IPMP shall be a voluntary institution of a public character established not for gain, with institute personality and perpetual succession.
- p. No member shall have any right to the assets of IPMP and the liability of the members shall be limited to the amount of their unpaid subscription, if any.
- q. IPMP may sue and be sued in its own name and shall be registered under the laws of Ghana.
- r. **Ratification of the Code of Conduct:** This Code of Conduct takes effect upon ratification by two-thirds of ballots received from the Governing Council.
- s. **Dissolution of the Institute:** In the event of the dissolution of the institution, the institution’s assets, after financial obligations have been met, will be donated to the Education-Endowment Scholarship Fund, with the intention that the Education-endowment will continue to provide scholarship opportunities to education.
- t. **Fiscal Year:** The fiscal year of the Institute shall be from January 1st through to December 31st.
- u. **Rules of Order:** Questions of procedure shall be decided by Robert’s Rules of Order.
- v. **Seal:** The institution shall have a seal and the said seal may be used by causing it or a facsimile thereof to be impressed or affixed or in any manner reproduced. Only authorized officers (Executive Director) of the institution shall have authority to affix the seal to any document requiring it.
- w. **Gifts:** The Executive Director may accept on behalf of the Institute any contribution, gift, grant, bequest, or devise for the general purposes or for any special purpose of the Institute.

**ARTICLE FOUR (4)
THE CODE OF CONDUCT**

4.1 Professional Conduct

- a. IPMP is a professional body representing all those who have an interest in developing and promoting the professional disciplines of project, programme and portfolio management for the public benefit.
- b. IPMP members shall be knowledgeable, skilled and experienced professionals recognized in the Ghana and worldwide. This code applies to all IPMP members, wherever in the world they practice.
- c. IPMP members apply this knowledge, skill and experience commensurate with their grade of membership

4.2 Purpose of the Code of Conduct

- a. The code of professional conduct sets out the elements of professional standards and ethical Behaviour which the institute requires from members and shall be binding on all members of the institute.
- b. Both professionalism and ethics relate to proper, acceptable conduct. Professionalism is demonstrable awareness and application of competences and qualities, including knowledge, and appropriate skills. Ethics covers the conduct and behaviors recognized within the institute as appropriate for the project and programme management profession.
- c. In recognition of their obligations to clients, employers, the public at large and to the profession, all members declare that they will comply with the institute's code of professional conduct and other requirements and conditions of continuing membership of IPMP

4.3 Application of the Code of Conduct

- a. In the event of an alleged breach of this code by a member, the matter may be referred to the professional conduct and ethics committee. It will be dealt with according to the terms of reference of the code of conduct.
- b. A member may be liable to a range of sanctions, which may include dismissal from the institute, if the committee determines that he or she has breached this code.
- c. The provisions of this code shall apply to all members; and all members are expected to follow the spirit, as well as the letter of it.
- d. This code is made in accordance with, and applied under, the regulations of IPMP

4.4 Standards of Professional Conduct

- a. Members shall exercise relevant competence in accordance with the institute's professional standards and qualifications, as underpinned by the membership and the Professional Competence Baseline Framework. Members shall also:
 - i. Observe the various requirements of this code at all times;
 - ii. Act with integrity in relationships with other professionals, both within and outside the institute, as well as with non-professionals and the wider public;
 - iii. Have due regard to public health, safety and the environment; and
 - iv. Ensure that they have knowledge and understanding of relevant legislation, regulations and standards and comply with such requirements.
- b. In paragraph
 - i. 'Relevant' means the standard of competence reasonably expected of a member of IPMP when practicing as a project manager, or undertaking other functions in the sphere of project management.

4.5 Personal Responsibilities

- a. Members have personal responsibilities which go beyond those immediately implied by their contract with employers or clients. Members shall:
 - i. Act honestly and promptly and in such a manner to ensure that their client is not misled, offering appropriate professional advice and guidance;
 - ii. Respect the confidentiality of their client information;
 - iii. Act in the best interests of their employer and clients in all business and professional matters, taking account of the wider public interest concerns and those of any employee or colleague;
 - iv. Exercise sound judgment and professional discretion to ensure the public interests are safeguarded;
 - v. Ensure that their professional skills are kept up-to-date and enhanced by continuing professional development (CPD), training and education through the IPMP CPD scheme;
 - vi. Claim expertise only in areas where their skills and knowledge are demonstrably adequate;

4.7 Standards for Ethical Conduct

- a) Professional ethical behavior is about doing things ,right' so that it complies with the norms of ethical behavior and public interest such that it could, if necessary, withstand intense public scrutiny.
- b) Project professionals have a duty to report observations or concerns about ethically questionable behavior so that they can be properly investigated and resolved.

**ARTICLE FIVE (5)
MEMBERSHIP**

5.1 Professional Recognition of Membership

- a. An opportunity to be recognized professionally is important for many reasons. One being that it can provide a real sense of achievement and celebrates the knowledge and experience an individual has gained during their professional project management career.
- b. It is especially valuable because the independent standards applied when assessing for professional recognition are the same for everyone no matter the differences in their work places, job roles or how they gained the experience for their role.
- c. Professional recognition provides a pathway or framework for an individual's professional development while still allowing the flexibility for different options depending on the specialism of the individual.
- d. Gaining professional recognition raises both personal and professional credibility and so open new doors in the work environment. All of this help to improve an individual's visibility and standing in the work community and is often the starting point for further development.
- e. The requirement for professionals to maintain, improve and broaden their knowledge and skills and develop the personal qualities and competencies required in their working lives is a core component of professional recognition.
- f. Maintaining and recording CPD help to identify an individual's strengths and interest as well as any potential professional development shortfalls. It helps to keep an individual up-to-date in their role and the project management sector which we know is constantly changing.
- g. Another essential element of professional recognition is a requirement to commit to a Code of Conduct to guide the member and raise the level of trust and confidence of the public in the profession.

5.2 Membership Benefits

- i. Members shall meet certain standards of achievement based on a combination of academic qualifications and knowledge gained through relevant experience.
- ii. Members shall also be able to demonstrate a high level of achievement and exceptional professionalism in relation to project management profession.
- iii. Being a member of IPMP shall provide you with independent and external recognition for your qualifications and achievements.
- iv. It shall also provide valuable ways for you to focus on maintaining and enhancing your technical and professional skills and knowledge.

- v. IPMP shall support this intent by providing you with a professional development roadmap linking IPMP membership and professional registration with staged recognition leading to IPMP Fellowship.
- vi. This shall also build on your employer's current Continuing Professional Development (CPD) recording processes.

- d. The quorum for the transaction of business of the Committee shall not be less than one half ($\frac{1}{2}$) of its members.

6.25 Establishing Country Chapter

Members of the **Institute of Project Management Professionals** can form country (local) chapters. The Institute encourages local chapters as a means of advancing its mission, increasing membership and preparing individuals for leadership roles on the national level. The following guide provides information on the process of forming chapters.

Institute of Project Management Professionals is an effective national organization which delivers a range of benefits to members. There are many things that can be accomplished on a local level much more effectively. Local chapters serve as a venue for members to get together, exchange views, and attend continuing education courses and social activities. Local chapters can regularly interact in a local community to provide programs or activities that directly impact the oral health. And, most importantly, a local organization is aware of and sensitive to the needs that are unique to every community. For these reasons, the creation of a local chapter would make sense and provide value to project management professionals.

6.25.1 What to Do

Starting a chapter is not a difficult process, but it is a process which requires **commitment**. It requires project management professionals who agree with the IPMP's mission and wish to take a proactive role accomplishing the mission. Without this commitment an effective chapter cannot exist.

6.25.2 Steps in getting started

Contact the national institute. Inform the Executive Director that you are interested in forming a local chapter of the IPMP. IPMP National Executive Board will provide a list of IPMP members in your country area.

1. Get two or three people who share your enthusiasm and goals to assist you in the creation of the local chapter. These members may be the founding officers of the new chapter.
2. Contact local IPMP members and students within your country. This can be done by telephone or by mail, however, the Institute recommends that you first identify individuals or members you already know. Contact them and ask them to participate in the formation of the new chapter.
3. Decide upon a structure with reference to IPMP Chapter Organizational Breakdown Structure in section 6.1.2
 - a. **The Officers:** What officers you will have and who they will be. (Recommended officers as state in IPMP Chapter Organizational Breakdown Structure in section 7.1.2)
 - b. **Dues:** A chapter is not designed to make money, but you will need funds for organizing, events, meeting expenses and so forth. The Institute will have guidelines for you to consider.

- c. **By-laws:** The chapter shall adhere to IPMP code of conduct
- d. **The initial goals of the chapter:** What do you want to accomplish for your first year? Develop your MISSION statement.
- e. **Set-up a system for record keeping and accounting:** At a minimum you will need to track:
 - o Member contact information
 - o Dues received and owed
 - o Expenses

6.25.3 What to Do, Once You Are Started

1. Organize a recruitment meeting, this should be done at a convenient place best known to you including IPMP members and members who may be interest. At the meeting be prepared to:
 - Sign up new members to both local chapter and the national institute.
 - Discuss the organization's mission and goals.
 - Disseminate a schedule of events, or to at least receive suggestions.
 - Recruit members for committees and specific activities.
 - Most importantly: **Generate enthusiasm** for the new local chapter.
2. Secure a country advisor (for country chapters) and get a commitment from the project management professionals in your country.
3. Open your bank account: Country chapters will need to become recognized as a chapter organization by their country. Then a bank account may be set up through the chapter. If that is not an option, IPMP executive board will walk you through the process under the Institute's policies.
4. Designate a location (s) for your meetings. The location will depend upon the type of meetings you will be holding. Generally, locations are easy to arrange, such as small meeting rooms at hotels or banquet rooms at a restaurant. For student chapters you may find locations within the University to hold meetings. These facilities are eager to host and cater professional meetings.
5. Publish a schedule of events. Be sure to contact mother (IPMP Ghana) to place announcements in their websites or newsletters.

6.25.4 Activities

The chapter exists to be industrious and active. It is important the chapter has a mix of activities within its structures to its structures. This will entice membership as people may join for different reasons and it will bestow the professional creditability appropriate to a chapter of the IPMP. Chapters will engage in the following activities:

1. **Continuing Education:** Chapter may provide CE classes using the National Institute's CE number. Contact the national IPMP office for requirements and restrictions. Generally, it is not difficult finding speakers and programs for a professional group. Project specialists, financial experts and vendors are usually willing to provide presentations. Depending upon the venue, it is appropriate to charge a fee above and beyond membership dues for a continuing education session, especially if dinner is provided.
2. **Community Events:** IPMP local chapters may participate or organize:
 - Project Management Fairs
 - Forum Discussions
 - CPD Trainings
 - Mentoring etc.
3. Social Events can encourage professional networking and provide organizational cohesiveness.
4. Advocacy. The IPMP national office will provide information and updates on issues the Institute is working on.
5. Organize job referral services.

6.25.5 Forms, Documents & Supplies

Any organization requires documentation to function. Be prepared to develop or request the following forms from the IPMP National.

1. Membership application
2. Certification of Membership
3. Receipt books
4. Flyers for events
5. Newsletters or informational mailings
6. Schedules of events
7. Renewal notices
8. Banner

**ARTICLE SEVEN (7)
FUNDAMENTAL PRINCIPLES**

With reference to this code, the POCIP shall form the fundamental principles of the institute to regulate its members in the field of practicing.

- a. **P** - Professional Competence and Due Care
- b. **O** - Objectivity
- c. **C** - Confidentiality
- d. **I** - Integrity.
- e. **P** - Professional Behaviors

7.1 Professional Competence & Due Care

(a) The principle of professional competence and due care shall impose the following obligations on project management professional:

- i. To maintain professional knowledge and skill at the level required to ensure that clients or employers receive competent professional service; and
- ii. To act diligently in accordance with applicable technical and professional standards when providing professional services.
- iii. Competent professional service requires the exercise of sound judgment in applying professional knowledge and skill in the performance of such service.
- iv. The maintenance of professional competence requires a continuing awareness and an understanding of relevant technical professional and business developments. Continuing professional development develops and maintains the capabilities that enable Members to perform competently within the professional environments.
- v. Diligence encompasses the responsibility to act in accordance with the requirements of an assignment, carefully, thoroughly and on a timely basis.
- vi. Members shall take steps to ensure that those working under his authority in a professional capacity have appropriate training and supervision.
- vii. Where appropriate, Members shall make clients, employers or other users of the professional services aware of limitations inherent in the services to avoid the misinterpretation of an expression of opinion as an assertion of fact.

7.2 Objectivity

(a) The principle of objectivity shall impose an obligation on all IPMP Members not to compromise their professional or business judgment because of bias, conflict of interest or the undue influence of others.

- (b) Members shall be exposed to situations that shall impair objectivity. It is impracticable to define and prescribe all such situations. Relationships that bias or unduly influence the professional judgment of the IPMP Members should be avoided.

7.3 Confidentiality

- (a) The principle of confidentiality shall impose an obligation on IPMP Members to refrain from:
 - i. Disclosing outside the firm or employing organization confidential information acquired as a result of professional and business relationships without proper and specific authority or unless there is a legal or professional right or duty to disclose; and
 - ii. Using confidential information acquired as a result of professional and business relationships to their personal advantage or the advantage of third parties.
- (b) Members shall maintain confidentiality even in a social environment. Members should be alert to the possibility of inadvertent disclosure, particularly in circumstances involving long institute with a business associate or a close or immediate family member.
- (c) Members shall also maintain confidentiality of information disclosed by a prospective client or employer.
- (d) Members shall also consider the need to maintain confidentiality of information within the firm or employing organization.
- (e) Members shall take all reasonable steps to ensure that staff under his control and persons from whom advice and assistance is obtained respect of the professional's duty of confidentiality.
- (f) Members shall comply with the principle of confidentiality continues even after the end of relationships between members and a client or employer. When member's changes employment or acquires a new client, the members is entitled to use prior experience. The members shall not, however, use or disclose any confidential information either acquired or received as a result of a professional or business relationship.
- (g) The following are circumstances where members shall be required to disclose confidential information or when such disclosure shall be appropriate:
 - i. Disclosure is permitted by law and is authorized by the client or the employer, disclosure is required by law, for example:
 - ii. Production of documents or other provision of evidence in the course of legal proceedings; or

- iii. Disclosure to the appropriate public authorities of infringements of the law that come to light; and
 - iv. There is a professional duty or right to disclose, when not prohibited by law:
 - a. To comply with the quality review of a member body or professional body;
 - b. To respond to an inquiry or investigation by a member body or regulatory body;
 - c. To protect the professional interests of a members in legal proceedings; or
 - d. To comply with technical standards and ethics requirements.
- (h) In deciding whether to disclose confidential information, members shall consider the following points:
- i. Whether the interests of all parties, including third parties whose interests may be affected, could be harmed if the client or employer consents to the disclosure of information by the Members;
 - ii. Whether all the relevant information is known and substantiated, to the extent it is practicable; when the situation involves unsubstantiated facts, incomplete information or unsubstantiated conclusions, professional judgment should be used in determining the type of disclosure to be made, if any; and
 - iii. The type of communication that is expected and to whom it is addressed; in particular, members should be satisfied that the parties to whom the communication is addressed are appropriate recipients.

7.4 Integrity

- (a) The principle of integrity shall impose an obligation on all Members to be straightforward and honest in professional and business relationships. Integrity also implies fair dealing and truthfulness.
- (b) Members shall not be associated with reports, returns, communications or other information where they believe that the information:
 - a. Contains a materially false or misleading statement;
 - b. Contains statements or information furnished recklessly; or
 - c. Omits or obscures information required to be included where such omission or obscurity would be misleading.

7.5 Professional Behaviour

- (a) The principle of professional behaviour shall imposes an obligation on members to comply with relevant laws and regulations and avoid any action that may bring discredit to the profession. This shall include actions which a reasonable and informed third party, having knowledge of all relevant information, would conclude negatively affects the good reputation of the profession.

- (b) In executing their work, members shall not bring the profession into disrepute. members shall be honest and truthful and should not:
 - a. Make exaggerated claims for the services they are able to offer, the qualifications they possess, or experience they have gained; or
 - b. Make disparaging references or unsubstantiated comparisons to the work of others.

7.6 Professional Appointment & Client Acceptance

- (a) Before member accepting a new client relationship, members in public practice shall consider whether acceptance would create any threats to compliance with the fundamental principles. Potential threats to integrity or professional behaviour shall be created from, for example, questionable issues associated with the client (its owners, management and activities).
- (b) Client issues that, if known, shall threaten compliance with the fundamental principles include, for example, client involvement in illegal activities (such as money laundering), dishonesty or questionable project management practices.
- (c) The significance of any threats shall be evaluated. If identified threats are other than clearly insignificant, safeguards shall be considered and applied as necessary to eliminate them or reduce them to an acceptable level.
- (d) Appropriate safeguards shall include obtaining knowledge and understanding of the client, its owners, managers and those responsible for its governance and business activities, or securing the client's commitment to improve corporate governance practices or internal controls.
- (e) Where it is not possible to reduce the threats to an acceptable level, members in public practice shall decline to enter into the client relationship.
- (f) Acceptance decisions shall be periodically reviewed for recurring client engagements.
Engagement Acceptance
- (g) Project management professionals in public practice shall agree to provide only those services that the project management professionals in public practice is competent to perform. Before accepting a specific client engagement, project management professionals in public practice shall consider whether acceptance would create any threats to compliance with the fundamental principles. For example, a self-interest threat to professional competence and due care is created if the engagement team does not possess, or cannot acquire, the competencies necessary to properly carry out the engagement.

- (h) Members in public practice shall evaluate the significance of identified threats and, if they are other than clearly insignificant, safeguards should be applied as necessary to eliminate them or reduce them to an acceptable level.

7.7 Changes in a Professional Appointment

Members in public practice who are asked to replace another project management professional in public practice, or who is considering tendering for an engagement currently held by another project management professional in public practice, shall determine whether there are any reasons, professional or other, for not accepting the engagement, such as circumstances that threaten compliance with the fundamental principles. For example, there may be a threat to professional competence and due care if a project management professional in public practice accepts the engagement before knowing all the pertinent facts.

- (a) The significance of the threats shall be evaluated. Depending on the nature of the engagement, this may require direct communication with the existing project manager to establish the facts and circumstances behind the proposed change so that the members in public practice shall decide whether it would be appropriate to accept the engagement. For example, the apparent reasons for the change in appointment shall not fully reflect the facts and shall indicate disagreements with the existing project manager that may influence the decision as to whether to accept the appointment.
- (b) An existing project management professional is bound by confidentiality. The extent to which the members in public practice shall discuss the affairs of a client with a proposed project management professional will depend on the nature of the engagement and on:
 - a. Whether the client's permission to do so has been obtained; or
 - b. The legal or ethical requirements relating to such communications and disclosure, which shall vary by jurisdiction.
- (c) In the absence of specific instructions by the client, an existing project management professional shall not ordinarily volunteer information about the client's affairs. Circumstances where it may be appropriate to disclose confidential information are set out in the code of conduct
- (d) If identified threats are other than clearly insignificant, safeguards shall be considered and applied as necessary to eliminate them or reduce them to an acceptable level.

7.8 IPMP Members Safeguard

Such safeguards shall include:

- (a) Discussing the client's affairs fully and freely with the existing Project Management Professional.
- (b) Asking the existing project management professional to provide known information on any facts or circumstances that, in the existing project management professional's opinion, the proposed project management professional should be aware of before deciding whether to accept the engagement.

- (c) When replying to requests to submit tenders, stating in the tender that, before accepting the engagement, contact with the existing project manager will be requested so that inquiries may be made as to whether there are any professional or other reasons why the appointment should not be accepted.
- (d) Project Management Professional in public practice shall obtain the client's permission, preferably in writing, to initiate discussion with an existing project management professionals. Once that permission is obtained, the existing Project Management Professional should comply with relevant legal and other regulations governing such requests. Where the existing project management professional provides information, it should be provided honestly and unambiguously. If the proposed project management professional is unable to communicate with the existing project management professional, the proposed project management professional should try to obtain information about any possible threats by other means such as through inquiries of third parties or background investigations on senior management or those charged with governance of the client.
- (e) Where the threats cannot be eliminated or reduced to an acceptable level through the application of safeguards, Members in public practice should, unless there is satisfaction as to necessary facts by other means, decline the engagement.
- (f) Members in public practice shall be asked to undertake work that is complementary or additional to the work of the existing project. Such circumstances may give rise to potential threats to professional competence and due care resulting from, for example, a lack of or incomplete information. Safeguards against such threats include notifying the existing project manager of the proposed work, which would give the existing project the opportunity to provide any relevant information needed for the proper conduct of the work

7.9 Conflict of Interest

Members shall report to the stakeholders, customers, or others any actions or circumstances that could be construed as a conflict of interest. Members shall:

- (a) Avoid any private or professional activity that would create a conflict of interest or the appearance of impropriety
- (b) Avoid engaging in personal business with any supplier representative or similar person
- (c) Avoid lending money to or borrowing money from any supplier
- (d) Avoid any and all potential for nepotism
- (e) Avoid any overlap of duties in the project process
- (f) Safeguard the project process from political or outside influence

7.10 Acting Professionally

Members are required to act in a professional manner in difficult situations. Also, they are required to coaching team members to conform to the standard of conduct expected by the organization they work for.

7.11 Relationship with Customers, Clients & Employers

- (a) Members shall provide project stakeholders with fair, honest, complete and accurate information on the preparation of estimates concerning costs, services and expected results.

- (b) Also, members shall fully and accurately disclose any professional or business-related conflicts or potential conflicts of interest in a timely manner. Perhaps this is one of the most single important issues, and project management professionals need to improve on this. There is a tendency among project teams to give good news (to disclose positives) and to avoid bad news (hide negatives). Project Management Organizations have to cultivate a culture where the bearer of bad news is not punished.

7.12 Confidentiality of Information

- (a) Members shall honour and maintain the confidentiality of privacy of customer, client, employer, and similar work information, including the confidentiality of customer, or client identities, assignments undertaken, and other information obtained through the course of a professional relationship, unless: granted by permission by the customer, client or employer; or the maintenance of the confidentiality is otherwise unethical or unlawful.

- (b) Members shall respect and protect intellectual property rights of others, and to properly disclose and recognize the professional, intellectual and research contributions of others.

7.13 Taking Responsibility of Your Own Actions

Members shall accept responsibility of their own actions. As professionals our concern for project and the organization should take precedence over our own feelings.

7.14 Respecting Differences in Diverse Cultures

Members shall interact with team and stakeholders in a professional and ethical manner by respecting personal, ethnic, and cultural differences in order to ensure a collaborative project management environment. Global competition requires awareness of cultural influences and customary practices of the country. Project managers' need to be educated in the country's cultural norms, business and management practices, also in regulations and legal contracting framework.

7.15 Members Qualification Job Placement & Wages

Members employed in private & public sector job placements and wages shall be in reference to the institutes Job Qualification Mapping for the three (3) sectors

ARTICLE EIGHT (8)
MEMBERS DISCIPLINARY

8.1 Charter and Bye-Laws

- a. The institute shall oblige under the terms of its charter and bye-laws to investigate complaints made against members for failure to observe the professional and ethical standards laid down in the Code of Conduct.
- b. The bye-laws shall give authority for a disciplinary committee to investigate complaints against members and, if it is found that they have breached the Code, to take appropriate action.
- c. IPMP shall not be a regulatory body required by statute to police the professional conduct of its members, but it shall have obligations and rights to ensure its members uphold ethical standards and, as a point of principle, treats complaints against its members with the utmost seriousness.
- d. The disciplinary process set out in IPMP' regulations shall underpin by the principles of natural justice:
 - i. The right to a fair hearing
 - ii. The right of reply
 - iii. No bias or conflicts of interest (or appearance of such)

8.2 Governance

- a. The Professional Conduct & Ethics Committee shall be part of the institute's governing body and is ultimately responsible for the integrity of the disciplinary process. The PCEC shall delegates the investigation of complaints and the recommendation of appropriate sanctions to its Council but shall be responsible for endorsing sanctions and authorising their implementation.
- b. The Professional Conduct & Ethics Committee shall form a view on its behalf and the Committee's eventual recommendation to the council carries the weight of what Charter calls a 'direction'; it is presented for formal endorsement rather than debate. The council would normally not reject the committee's direction unless it concludes that the process the Professional Conduct & Ethics Committee has followed in arriving at the direction has not been sound.
- c. Member or the complainant shall appeal against the decision, but once the appeal has been heard and a decision has been made, that decision is final.

8.3 Disciplinary Committee

The Professional Conduct & Ethics Committee shall be the Disciplinary Committee of the institute.

8.4 Making a Complaint

Any complaint about the conduct of a member shall be made in writing and address to the membership director at Head Office. The complaint shall set out the details of the alleged breach of the Code and include any supporting documentary evidence.

8.5 Disciplinary Process

a. Stage 1 - Initial Assessment

When a complaint is received, it shall be assessed by an initial review panel which shall consists of the Head of Professional Conduct & Ethics Committee, the membership director and registrar. Their job is to verify that the complaint is admissible and they will check that:

- i. Anonymous complaints could be malicious and IPMP would have no way of validating
 - a) The person named in the complaint is a current member of the institute
 - b) The complaint is in writing
 - c) The complainant is identified
 - d) The complaint relates to a breach of one or more principles of the code of conduct.
- ii. Once these criteria are satisfied, a copy of the complaint and any supporting documentation is sent to the Disciplinary Committee, and an acknowledgement is sent to the complainant.
- iii. The initial review panel shall not give an opinion on whether or not there is a case to answer. A copy of the complaint and any supporting documentation is sent to the member asking for their comments in writing, and the process is explained to them. When the member's response is received, the Disciplinary Committee is convened.
- iv. While the institute has no statutory powers to compel the member to co-operate, it shall expect its members to reply promptly to requests for information. However, if the member does not respond, then the Disciplinary Committee shall proceed with the case and reach a judgement based on the evidence to hand.

b. Stage 2 - Investigation

- i. The case file shall be sent to the members of the Disciplinary Committee to consider independently and a meeting shall be arranged to discuss the evidence and agree one of the following options:
 - a. That based on the information presented there is no case to be answered and the file can be closed;

- b. That there appears to be a case to answer but additional information or evidence is required before a decision can be made;
 - c. That based on the information presented there is a case to answer and a formal hearing should be held.
- ii. If the Disciplinary Committee decides that there is a case to answer, it shall set a date and venue for the hearing and instruct the company secretary to inform the member. The member must be given at least 5 days' notice in writing. The company secretary shall also inform the complainant who shall attend the hearing to present their case in person, but they shall be interviewed by the Disciplinary Committee separately.
 - iii. The Disciplinary Committee shall ask the complainant, the member, or any other interested party for further information or clarification of any of the points of evidence prior to the hearing. Copies of all the documents which the committee is going to consider will be sent to the member prior to the hearing.
- c. **Stage 3 - Hearing**
- a) The member shall attend the hearing in person, submit evidence in writing or be represented by another member of the institute. If the member chooses neither to attend nor to send a representative, then the Disciplinary Committee shall consider the written evidence and reach a decision on that basis.
 - b) If the member or his/her representative attends, he or she shall be invited to present the member's response to the allegations. The Disciplinary Committee shall ask questions and shall then consider its decision in private.
 - c) The company secretary attends the hearing to take a record of the proceedings and advise on procedural matters, but does not take part in the decision-making.
 - d) The Head of committee shall adjourn the meeting if the committee decides that additional information or clarification of a particular point is required, and reconvene it at a later date. Once the decision has been made, the
 - e) Head shall prepare and signs a formal minute of the meeting, recording the decision and the rationale. A copy of the formal minute is sent to the member and to the complainant as soon as possible after the hearing, but within 5 days at the latest.

d. **Stage 4 - Sanction**

The Disciplinary Committee will select what it considers to be the most appropriate sanction, which shall be proportionate to the seriousness of the breach of the Code of Conduct. The options are:

- a. The Committee shall normally put its recommended sanction (its 'direction') to the next scheduled meeting of the council through the Professional Conduct & Ethics

Committee. However, if the complaint is very serious and the Committee's decision is to expel the member, then the Council may ratify the decision at a special board meeting convened for this purpose.

- b. The member shall have the right to attend and address the Professional Conduct & Ethics Committee meeting or send another member to speak on his or her behalf, or send a written submission, and the Professional Conduct & Ethics Committee must consider any such representation before formally approving (or rejecting) the committee's direction.
 - c. The member shall therefore be provided with the date, time and venue for the Professional Conduct & Ethics Committee meeting as soon as possible after the hearing. The member shall put his or her case to the Professional Conduct & Ethics Committee but shall not take any further part in the proceedings. The complainant shall also address the Professional Conduct & Ethics Committee, but separately from the member.
 - d. The executive board shall then vote on the recommended sanction by the Professional Conduct & Ethics Committee; the decision must be approved by a two thirds majority vote.
 - e. The executive board decision shall be communicated to both the member and the complainant in writing within 7 days of the meeting by the Professional Conduct & Ethics Committee.
- e. **Stage 5 - Appeal**
- i. If both parties accept the Committee's decision, the sanction shall be applied and a note made on the member's record. If either party wishes to appeal the decision, they must do so within 21 days of the communication of the decision.
 - ii. Appeals are heard by a separate, independent committee, the Ethics Review Panel. In addition to considering appeals against Professional Conduct & Ethics Committee Decisions, the Ethics Review Panel also determines whether or not the Ethical Project Mark shall be removed from individuals or organisations listed on the Ethical Project Registers.
 - iii. An appeal shall be in writing, setting out the basis for the challenge. While the appeal is pending, the Committee's decision shall remain in effect unless and until an appeal is successful.
 - iv. There are only two grounds on which an appeal against a Professional Conduct & Ethics Committee decision might be successful:
 - a) Due process was not followed

- b) New information has come to light that was not available to the Professional Conduct & Ethics Committee at the time it took its decision (such as mitigating circumstances)
- v. The Ethics Review Panel shall review the case file and determine whether or not there were any process errors or omissions. It shall not comment on the appropriateness of the sanction unless it can be shown that the Committee did not take all the available evidence into account.
- vi. The Ethics Review Panel's decision on whether to uphold or amend the sanction shall be communicated to both parties and to the Chairs of the Professional Conduct & Ethics Committee and the President. The Panel's decision is final and there can be no further appeal.

f. Stage 6 - Final Decision

- a) Whether or not there has been an appeal, if it is decided that it is in the public interest, the outcome of the hearing shall be published. Expulsions from membership shall always be reported.
- b) The member shall also be removed from the published member register and, if applicable, the ethical mark register (if the member has only been suspended for a short period or reprimanded, they shall be allowed to re-join these registers once they have completed remedial learning and re-taken the ethics test).
- c) Enquiries If you would like more information about the IPMP complaints procedure, or you wish to lodge a complaint, please contact the IPMP Secretary at Head Office, Accra, Ghana.

g. Stage 7 - The Legal Position

- a. IPMP disciplinary hearing is not a court of law and there shall not be requirement for the allegations to be proven 'beyond all reasonable doubt'. The Professional Conduct & Ethics Committee role is to take due account of all the evidence available and to make a judgement on the facts of the case on a 'balance of probabilities', based on that evidence.
- b. IPMP is not a regulatory body with a legal mandate and there shall not be provisions for legal representatives to be present. However, the Professional Conduct & Ethics Committee shall ensure that all procedures are followed correctly and that all relevant legislation, such as the Data Protection Act, is adhered to.
 - a. expulsion from membership (lifetime) or suspension from membership with conditions imposed for reinstatement or
 - b. a written reprimand with conditions imposed for continuation of membership or no sanction imposed
- c. The IPMP disciplinary process shall not designed to provide evidence for any formal legal proceedings associated with the case. However, both the member and complainant shall

be aware that any documents produced as part of the disciplinary process are likely to be “discoverable” if subsequent court proceedings occur. The Professional Conduct & Ethics Committee shall not normally consider a complaint until any ongoing legal proceedings have been concluded.

8.5 Members Submission to the Code of Conduct

The purpose of the code is to define behaviours and actions which members shall commit to maintain as long as they are members of IPMP.

- 1) Members of IPMP worldwide shall require to uphold this code and to seek commitment to it by all the parties they engage with in their professional practice.
- 2) Members shall encourage their organisation to adopt an ethical project management based on the principles of this code and raise any matter of concern relating to business ethics at an appropriate level within their organisation.
- 3) Members’ conduct shall be judged against the code and any breach may lead to action under the disciplinary rules set out in the Institute’s Charter. Members are expected to assist any investigation by IPMP in the event of a complaint being made against them.
- 4) As a member of Institute of Project Management Professionals, I shall:
 - a) Enhance and protect the standing of the profession, by:
 - i) Never engaging in conduct, either professional or personal, which would bring the profession or the Institute of Project Management Professionals into disrepute
 - ii) Not accepting inducements or gifts (other than any declared gifts of nominal value which have been sanctioned by my employer)
 - iii) Not allowing offers of hospitality or those with vested interests to influence, or be perceived to influence, my business decisions
 - iv) Being aware that my Behaviour outside my professional life may have an effect on how I am perceived as a professional.
 - b) Maintain the highest standard of integrity in all business relationships, by:
 - i) Rejecting any business practice which might reasonably be deemed improper
 - ii) Never using my authority or position for my own financial gain
 - iii) Declaring to my line manager any personal interest that might affect, or be seen by others to affect, my impartiality in decision making
 - iv) Ensuring that the information I give in the course of my work is accurate and not misleading
 - v) Never breaching the confidentiality of information I receive in a professional capacity
 - vi) Striving for genuine, fair and transparent competition
 - vii) Being truthful about my skills, experience and qualifications.
 - c) Promote the eradication of unethical business practices, by:

- i) Fostering awareness of human rights, fraud and corruption issues in all my business relationships
 - ii) Responsibly managing any business relationships where unethical practices may come to light, and taking appropriate action to report and remedy them
 - iii) Undertaking due diligence on appropriate project relationships in relation to forced labour (modern slavery) and other human rights abuses, fraud and corruption
 - iv) Continually developing my knowledge of forced labour (modern slavery), human rights, fraud and corruption issues, and applying this in my professional life.
- d) enhance the proficiency and stature of the profession, by:
- i) continually developing and applying knowledge to increase my personal skills and those of the organization I work for
 - ii) fostering the highest standards of professional competence amongst those for whom I am responsible
 - iii) optimizing the responsible use of resources which I have influence over for the benefit of my organization
- e) Ensure full compliance with laws and regulations, by:
- i) Adhering to the laws of the countries in which I practice, and in countries where there is no relevant law in place I will apply the standards inherent in this code
 - ii) Fulfilling agreed contractual obligations
 - iii) Following IPMP guidance on professional practice.

ARTICLE NINE (9)
SOCIAL MEDIA PLATFORM ETHICS

Social media has emerged as an indispensable tool for communication and interaction. In addition to its affordability, the feature with which it offers group interactions makes it more appealing. This has significantly motivated laggards (late adopters of technology) to switch to smartphones.

WhatsApp groups being the most interactive instant messaging platform, which has emerged to be more active than all the active SNSs (social networking sites), has numerous advantages. However, to appreciate these advantages in a better way, the institute ought to be mindful of some ethics which are necessary for virtual interactions.

This article highlights on the Group Message Settings (Preferable) and the platform Group Ethics

9.1 Group Message Settings (Preferable)

- a. IPMP Social Media Platforms (WhatsApp, Facebook, LinkedIn, Instagram, Twitter, etc.) shall have a name that represent the institute and the institute Logo shall be used as group profile picture
- b. The purpose of establishing IPMP Social Media Platforms (WhatsApp, Facebook, LinkedIn, Instagram, Twitter, etc.) must be communicate and approved by the ethics and conduct director in consultation of the executive board
- c. IPMP Social Media Platforms (WhatsApp, Facebook, LinkedIn, Instagram, Twitter, etc.) shall be managed by an administrator appointed or approved by the ethics and conduct director
- d. IPMP Social Media Platforms (WhatsApp, Facebook, LinkedIn, Instagram, Twitter, etc.) shall seek consent of individual members before adding participants to groups
- e. IPMP Social Media Platforms (WhatsApp, Facebook, LinkedIn, Instagram, Twitter, etc.) shall be a public communication platform for all members.

9.2 Group Ethics - Do's

- a. Keep to the purpose of the group, send messages for all in the Group; and not limited to certain individuals.
- b. To acknowledge and recognized individual for achievement professional.
- c. The wish of member's birthday is permitted in the group, as it is also way of celebrating our members.
- d. Advertisement related to Institute of Project Management Professionals shall be allowed since, the platforms are the means of communication to members.

- e. Keep in mind that your words can be interpreted in multiple ways, so use short sentences that can't be misinterpreted.
- f. Circulate only authentic and factual messages. Ask yourself these four questions before posting: (1) Is it true? (2) Is it relevant? (3) Is it necessary? (4) Is this a good time to post?
- g. Check the date of the news that you want to forward in the Group; and ensure it is not very old. Remember the news should be relevant to project management and its related fields
- h. It is better to be a silent spectator in the Group, than being a nuisance by responding to every message posted on the various platforms.
- i. Politely excuse yourself before you quit the group.
- j. If you are the Group Administrator: offenders in the group should be cautioned personally; and repeated offenders can be removed permanently.

9.2 Group Ethics - Don'ts

- a. Do not share irrelevant messages about other topics in a particular group.
- b. Do not post negative messages on religion, community, region, political party because it may indirectly hurt others.
- c. Do not embarrass fellow member in the group.
- d. Do not forward advertisement messages or offer messages without factual basis in the group.
- e. Avoid sending prayer-chain or surprise over recitation of prayer(s) in the group, as the purpose of the same is like the previous point.
- f. Don't be offended if others leave the group. Not everyone wants the same information.

9.3 Materials Authorized to be Shared

The code is indicated the above that not everything that is worth sharing is suitable for sharing in IPMP group. There are a few exceptions to this. They can be shared in all groups, but they are also optional. IPMP Social Media Platform should think carefully before sharing them:

- a. **Good News:** When one graduates, or birthday, may share that good news with the institute members. This type of news can be shared across all IPMP Social Media Platform Groups.

- b. **Sad News:** Death, accident, and pandemics are among the sad news you can share with the group and should be related to our members.
- c. **Invitation:** Invitation to the institute CPD, annual conference, forum discussions, press release, or open house.
- d. **Seasonal Greetings:** When it's Eid, new year and national anniversary, you can share congrats and best wishes with all groups that share with you the same celebration or understanding about it.

ARTICLE TEN (10)
MEMBERSHIP EXAMINATION (ME)

Member Examination for the programme shall be administered at the end of each membership level in all courses offered during the level. It comprises a set of questions including essays, questions and practical examinations. The Member Examination accounts for 50 percent pass grade for each course taught and examined.

10.1 Grading System

The system of grading shall basically comprise two weights: **Pass and Fail**. Score **below 50%** for any course taken in the professional programme represent a **Fail** in the course. **Passes** are recorded for scores above **50%** in any respective course.

However, the Pass mark is constituted of weighted designated by letters and description to distinguish deserving students who show excellence and professionalism in their examinations. The table below indicates the designation as applicable to the grading system of the IPMP professional Programme.

Table 1: Scores and letter grades.

Passing Percentage: Passing percentage in the examination of each subject is 50%.

| Score Range (%) | Grade Designation | Description | GPA | Grade Type |
|------------------------|--------------------------|--------------------|------------|-------------------|
| 80 - 100 | A | Excellent | 3.5 - 4.0 | Pass |
| 70 - 84 | B | Very Good | 2.5 - 3.4 | Pass |
| 60 - 69 | C | Good | 2.0 - 2.4 | Pass |
| 50 - 59 | D | Credit | 1.5 - 1.4 | Pass |
| 10 - 49 | F | Referral | 1.00 | Fail |
| Incomplete | IC | Re-write | IC | Fail |

The Institute shall ensure quality training of its members without compromising its standards, for this reason the examination pass mark is 50% for each subject. A minimum of two subjects in an examination diet must be passed at 50% and this will be recorded in the candidate favour at any time examination is conducted. When a candidate is unsuccessful in four attempts examination sitting, such a candidate shall be withdrawn from the Institute examinations.

10.2 Membership Examination Period

The Professional Examination of the IPMP (all level) is held in April, August & December of every year. Only registered students of the institute who have paid their Examination Fees. Annual Subscription and the Special Levy up to date are eligible to apply for the examinations.

10.3 Examination Registration

Candidates shall be required to register for the professional Examinations by sending a mail or picking the examination registration form from our office. Examinations and assessment are currently provided as part of the course framework of an IPMP registered or accredited training programs. The assessment is based on centralize examinations with a local and international component to the examination program. Core programs will be the first to qualify for global

assessment with specializations being assessed through course framework as currently performed. The examining body (Professional Academic & Examination committee) is responsible for providing examination questions for assessment and marking of scripts.

Examinations of IPMP will be held in all the centers will be communicated to candidates one (1) month to the examination. Change of center by candidates after submission of entry form, where one examination center has been selected on the application form will not be allowed by the Institute. Candidates are entreated to give due consideration to several factors that may influence them before they choose an examination center, because the Institute will prepare full list of candidates for each center they have personally chosen and failure to be at the venue will be treated as examination absence.

10.4 Scope of the Examinations

The examination for all papers shall be set to cover all aspects of the syllabus content of each subject.

10.5 Communication of Examination Results

The result of the examination in the form of a Grade Sheet shall communicate to all candidate at the mailing address mentioned in the examination application form. Member Candidates, who do not receive the Grade Sheets within a month from the date of official announcement of the results, should contact us for a duplicate copy. The result is also uploaded on the Association's website.

10.6 General Examinations Rules & Regulations (Part A)

- a. Copies of professional examination timetables shall be pasted on Notice Board and it shall be the duty of the student member to consult these Notice Boards for details of their examinations.
- b. If it should become necessary for any changes to be made in the timetables, student members shall be informed accordingly.
- c. Student member shall report at the examinations hall/room at least 15 minutes before the time fixed for the beginning of the examination and should occupy the places assigned to them as indicated by the invigilator or Supervisor.
- d. No student member shall enter the examination room/hall more than half-an-hour after the examination paper has been given out. In exceptional cases the candidate shall secure permission from the invigilator.
- e. No student member shall be allowed to leave the examination room until half-an-hour after the examination paper has been given out.
- f. Student member shall not take books, papers or written information of any kind to the examination hall/room unless they are specifically requested to do so. No scribbling paper or anything that can be passed from one student member to another is allowed. Rough work and calculations must be done in the answers booklet and then crossed through to

show that they are not part of the answers. You should not copy the questions into your answer booklets. In the case of multiple choice papers, rough work for calculations must be done in the question paper and under no circumstances on the answer booklet sheets.

- g. It shall be the student members' responsibility to provide for themselves such materials as pen, pencil, eraser, ruler, calculator for the examination. Borrowing of these materials will not be allowed. Candidates are to ensure that they are given the right question.
- h. Student members are to use their index numbers throughout the examination. You are particularly asked to read the instructions in the question papers before answering the questions. It is most important that student members' membership number are written correctly on all examination papers.
- i. On receipt of answer booklet, student member should carefully read the instructions on the front cover of the answer booklet and enter their index numbers and other details as required.
- j. Student members may leave the examination room/hall temporarily only with express permission of the invigilator.
- k. Any student member leaving an examination room/hall and intending to return shall be accompanied.
- l. MOBILE PHONES ARE NOT ALLOWED IN THE EXAMINATION ROOM/HALL.
- m. Student members would be told by the invigilator(s) when to start answering the questions. Student members would be allowed a reading time to check that the question paper is the correct one, all questions are readable and there are no missing pages.
- n. No communication whatsoever, between student members is permitted during the examination. A student member may attract the attention of the invigilator by raising his/her hand.
- o. As soon as the "STOP WORK" order is announced, student members are to stop writing. Student members should remain seated for their answer booklets to be collected by the invigilator/invigilation assistant before they leave the examination room. Student members have the personal responsibility for ensuring that their answer booklets are collected by the invigilator/invigilation assistant.
- p. At the end of each examination, student members should ensure that numbers of questions are entered in the order they have answered in the space provided on the answer booklet. All used supplementary sheets should be fastened following the last page of the booklets.

- q. At the end of each examination, student members should not take away any used or unused answer booklets or any material supplied for the examination.
- r. Student members who go contrary, to the spirit and letter of these examination rules and regulations may be dismissed from the examination room/hall and their papers cancelled as specified in **PART B** of this regulation.

10.7 Examination Malpractices

All examination malpractices shall be dealt with in accordance with the provisions stipulated in part B of this general rules and regulations, as well as approved internal examination regulations of the institution. These include:

10.8 Unprofessional Examination Practices with Associated Penalties (Part B)

| UNPROFESSIONAL PRACTICES | PENALTIES |
|--|--|
| Bringing Prepared notes to the examination Hall which is <ul style="list-style-type: none"> • Relevant to the examination Question • Not relevant to the examination question | <ul style="list-style-type: none"> • Cancellation of Paper • Invigilator shall withhold student answer booklet for one (1) Hour. |
| A student Showing up one (1) Hour late in to the Examination Hall | Shall not be allowed to sit for the particular paper unless with prior notice. |
| Possessing Mobile Phone during Examination for <ul style="list-style-type: none"> • Assessing information relevant to the questions • Possession without assessing information | <ul style="list-style-type: none"> • Bared from sitting for subsequent papers in that level. • Invigilator shall withhold answer booklets for thirty (30) minutes. |
| Failing three or more papers per level | Shall not proceed to the next level |
| Communicating during examination | Invigilator shall withhold answer booklets for thirty (30) minutes for disturbing the session. |
| Spending more than ten (10) minutes in the washroom | Invigilator shall withhold answer booklets for thirty (30) minutes. |
| Removing sheets from the Examination Answer booklets | Bared from subsequent examination in that particular level. |
| Copying during the examination session | Cancellation of the paper in question |
| Insults or Assault on the Invigilator | Dismissal from the Examination hall. |
| Prepared notes on any part of the body | Dismissal from the examination hall |
| Destroying materials suspected to help establish cases of examination malpractices | Dismissal from the examination hall. |

NB:

- All student members shall read and understand the general rules and regulations.

- All student's members who contravene the provisions provided in the general rules and regulations of the professional examination shall face the Examination Committee of the Institute, once found guilty on the grounds of firm evidence, the corresponding punishment shall be applied.

10.9 Declaration of Result

Results of Professional Membership Examinations at the end of each membership level shall be provided for access by the student on the internet before commencement of the next level.

10.10 Methods of Assessment

We believe that our members' competencies can best be evaluated through the following, however the Professional Academic & Examination Committee determines which of these methods to use for each course:

- a. **Performance-Based Assessment (PfA):** A member is given a task to perform and a standard rubric is used to assess his/her performance on the task.
- b. **Portfolio-Based Assessment (PtA):** A portfolio serves as a compilation of members' work meant to show growth over time. Instead of grading members solely on standardized professional membership examination, the portfolio-based assessment is used by the members and Professional Academic & Examination Committee to keep track of member progress on hands-on activities from level to levels throughout their learning process. At the end of each membership level, it is the job of the Professional Academic & Examination Committee working with that members in the course to assess how far the member has come and then to award the necessary grades according to the level of competence achieved. Portfolios could include short videos of each member performing a particular task, and/or could be detailed instruction manuals about how to perform a particular tasks methodically. *Key components of the Portfolio – Based Assessment are Exhibitions and Demonstrations.*
 - **The Exhibitions:** Exhibits are a great way for students to take ownership of their learning. Each exhibit piece is accompanied by a student-written exhibit label, which describes the piece, its academic content, and the student's personal connection to the work. Lecturers use the exhibits and exhibit labels as one of the key assessments of student learning. Exhibitions provide an avenue for others (student class mates or invited lecturers or the entire campus, etc) beside the opinion of lecturers to judge student work.
 - **The Demonstrations:** In demonstration assessments students view a short expert demonstration, record their observations, and write an explanation of what they observed and mirror back through demonstration what they observed, documented and recorded. This provides students an avenue to peer review each other's and work using standardized rubrics, or formalized assessment scales, to promote class discussion.

- c. **Project Management Professionals' Projects:** Member Candidate will do research projects in various areas of their study under the supervision of Professional Academic Development Committee in their identified research projects. The students shall be assessed and graded by their respective supervisors based on findings, publications, innovations, patents, and/or meeting short term entrepreneurship goals and achieving project execution success.
- d. **Continuous Assessment (CA):** Continuous Assessment of students in the membership programme is a strategy implemented by the institute as a matter of professional academic policy in order to determine whether the member have mastered the knowledge and skills they are taught. The CA grade for each course accounts for 30 percent of the Final Grade (FG) at the end of each membership level. The Professional Academic Development Committee assesses for CA in a variety of ways including projects execution, solving problem practical, and CDP programme attended. Member students receive feedback from their professional assessors based on their performance. The Continuous assessment is a powerful diagnostic tool that enables the students to understand the areas in which they are having problems and concentrate their efforts in those areas. The CA also allows the lecturers/professors to monitor the impact of their teaching on the students' understanding and application of skills to enhance the modification of their pedagogical strategies. The professors/lecturers also use the CA assessment outcomes to assist the students through remedial or tutorial programs.
- e. **Field Practical Training (FPT):** Students between levels 4 and 6 in this program are required to undertake the FPT. Students join in project where they will undergo training. Lecturers are supposed to supervise and grade each student three (3) times during the training. A confidential report about the student (which includes student feedback, feedback from third party and lecture field trip assessment of student performance) during the training period is used by the institute to assign a grade to the student. An average grade determined from both the lecturer's grade, student feedback and that from the confidential constitute the assessed grade for the student.
